

3r MAMMOTH ROLL PACKER

This heavy duty compactor is designed for difficult waste streams including pallets, packaging crates, furniture, plaster board etc. The Mammoth can achieve up to 4:1 compaction ratios.

The Mammoth design is unique and features a side mounted roller for greater compaction. The 1750kg drum is 50% heavier than most other designs again ensuring industry leading compaction ratios. The drums teeth help to macerate the waste. The Mammoth features a full container length safety screen and is fully CE compliant. A level concrete base is required.

Motor	7.5kW
Electrical	415V 3ø50-
Length	6500mm
Maximum Work Height	4500mm
Width	1800mm/4130mm
Width Including Drum	3900mm
Weight	4000kg
Drum Diameter	1000mm
Drum Weight	1750kg

Key features/benefits

- ✓ Heavyweight drum
- ✓ Side mounted roller for greater compaction
- ✓ Strong and long lasting structural frame and teeth
- ✓ Adjustable cycle time
- ✓ Manual or auto operation
- ✓ Remote controls
- ✓ CE compliant
